SUMMARY

Enthusiastic Artificial Intelligence and Data Science undergraduate with a strong passion for **Machine Learning, Full-Stack Development, and Data Visualization**. Proficient in **Python, HTML, CSS, JavaScript, and React**, and actively building expertise through hands-on projects. Driven by curiosity and innovation, I aim to solve real-world problems through technology and collaborative teamwork

SKILLS

HTML.CSS .C .Python .Java
DSA . Time Management
Leadership.Java Script.Algorithms
Latex . c++ .React . Node js .
Machine Learning

LANGUAGES

ENGLISH Advanced ● ● ● ● ●

COURSES

Artificial intelligence and machine learning
Research Methodology, Ethics, and Scientific Writing
Data Analytics and Visualization
Computational Thinking For Object Oriented Design
Fundamentals of IoT and Sensors

EDUCATION

KI university	Vijayawada, Andhra Pradesh
Artificial intelligence and data science	2027
CGPA 9.9 / 10	
Sai Siddhartha	Tadipatri
MPC	2023
Marks 983 / 1000	
Target English medium school	
SSC	Tadipatri
Marks 576 / 600	2021

EXPERIENCE

KLRC Official	Vijayawada, Andhra Pradesh
Executive Committee Member	09/2024 Present
- Led and coordinated over 20 research events, resulting in a 30% increase in participation at each event. - Collaborated with a team of 15 members to ensure smooth execution of tasks, resulting in a 40% increase in event planning and management efficiency. - Organized 6 workshops, impacting over 400 students and enhancing their practical skills in research and technology.	

KEY ACHIEVEMENTS

- CGPA : 9.9**
Achieved an outstanding **9.9 CGPA** in my first year of engineering, reflecting consistent dedication and a strong academic foundation
- Python 101 for Data Science**
Learned the basics of Python, data analysis, and visualization using libraries like Pandas and NumPy. Developed a strong foundation in Python, which helped me start my journey in data science and work on real-world data tasks.
- ESG Job Simulation program from Forage**
Analysed client needs, evaluated sustainability solutions, and provided tailored recommendations. Developed practical skills in client analysis and sustainability, enhancing my understanding of ESG principles.
- Python (Basic) Certificate from Hacker Rank**
- Validated my Python programming skills, enhancing my technical profile and improving my readiness for real-world programming challenges.
- Project Management Job Simulation**
Enhanced my project management skills, increasing my effectiveness in leading projects.

PASSIONS

- Artificial Intelligence & Machine**
- Full-Stack Web Development**
- Problem-Solving**
- Innovation**

STRENGTHS

- **Leadership Experience**
Leading research projects at KLRC Official.
- **Excellent Time Management**
Strong ability to manage tasks efficiently.
- **Web development proficiency**
Expertise in HTML and CSS.
- **Collaborative teamwork**
Passionate about innovation and problem-solving in teams.

CERTIFICATION

Python 101 for Data Science
